

**CENTER OF EXCELLENCE** FOR  
Infant & Early Childhood  
Mental Health Consultation  
*Growth. Advancement. Impact.*

## Who We Are

The Center of Excellence for Infant & Early Childhood Mental Consultation (CoE for IECMHC) is a national center providing technical assistance to programs, communities, states, territories, and tribal communities, and professional development to individual mental health consultants to increase access to high quality mental health consultation throughout the country. The Center aims to impact the field of IECMHC by supporting the growth and advancement of the profession.

Equity is a central component of IECMHC. Every individual who is part of the IECMHC system has an important role to play in battling racism and promoting fair, positive, and equitable learning experiences for children and families. Through our work, the CoE for IECMHC helps consultation systems leaders and all IECMHC practitioners build capacity in understanding race and systemic racism, bias, and culturally responsive practice and meaningfully embed equity in their programs and practice.

## What We Do

The CoE for IECMHC advances equity and strengthens the capacity of IECMH consultants and programs through the following offerings:

**Programmatic Support:** Through educational sessions, webinars, presentations, and other targeted approaches, the CoE for IECMHC provides technical assistance to state, local, territory, tribal, and national stakeholders in enhancing their IECMHC programs:
